

Newsletter August 2006

Subject: Organisation

Dear business partners and associates,

Curas Ltd. is proud to announce the opening of the Asia Pacific office.

Monday 14 August 2006 marked the commencing of business out of Penang by Curas' newly established Representative Office. The opening of this regional office follows a successful application by Curas Ltd. at MIDA back in 2005 (Malaysian Industrial Development Authority).

The day also meant first working day for our newly appointed Regional Manager for Curas Asia Pacific Ms. Janice Lim. Janice brings to Curas her background of a decade's strong performance and dedicated service to the international medical device business. Prior to the current field of business, Janice brings experience from the retail and wholesale of consumer products. Furthermore Janice holds an MBA from University of Portsmouth (2004) as well as a Bachelor of Commerce from University of Windsor Canada.

Janice's email is Janice.Lim@CurasCare.com and mobile number: +60 1241 80 860.

The success criteria for Curas' Asian office remain unchanged; building regional sourcing capacity as well as supplying Curas partners, world wide, with marketing support on all levels. Furthermore the Penang office will offer future day to day support to the region's growing number of Curas exclusive national distribution partners.
